FLUTED SHAPES

Fluted ceramic tiles are characterized by a smooth rippled surface.

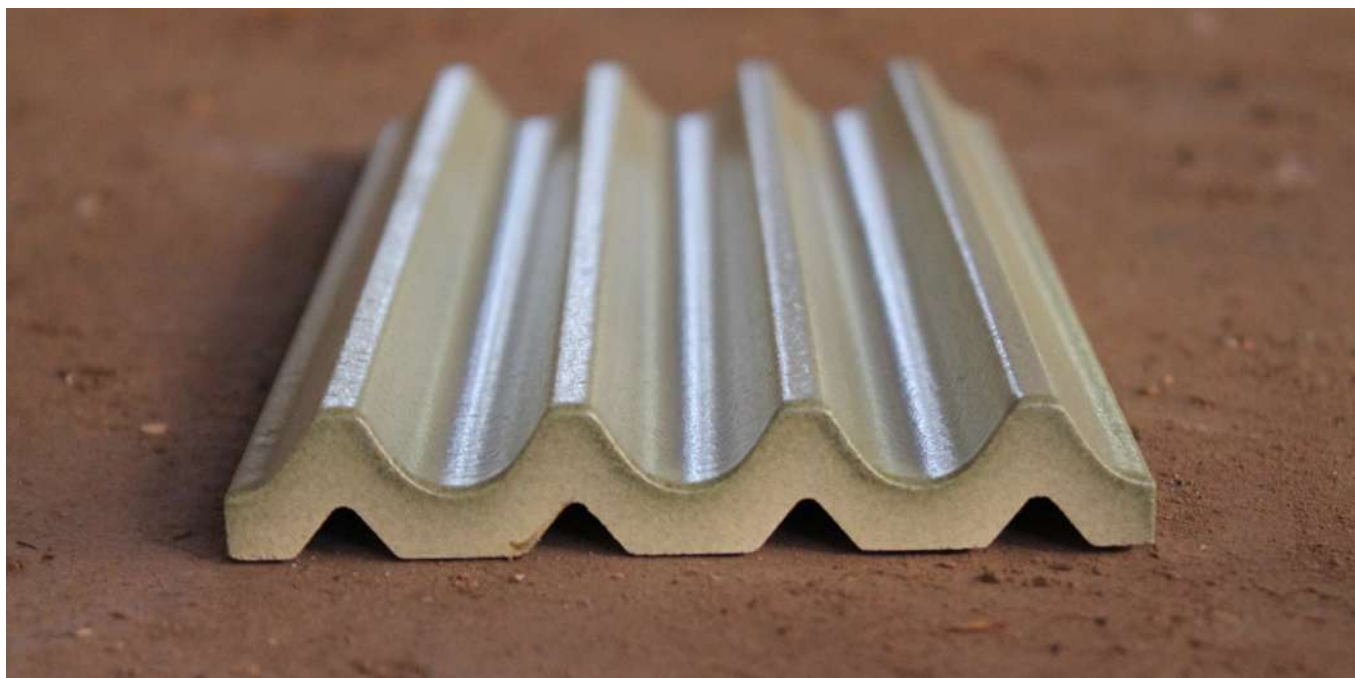

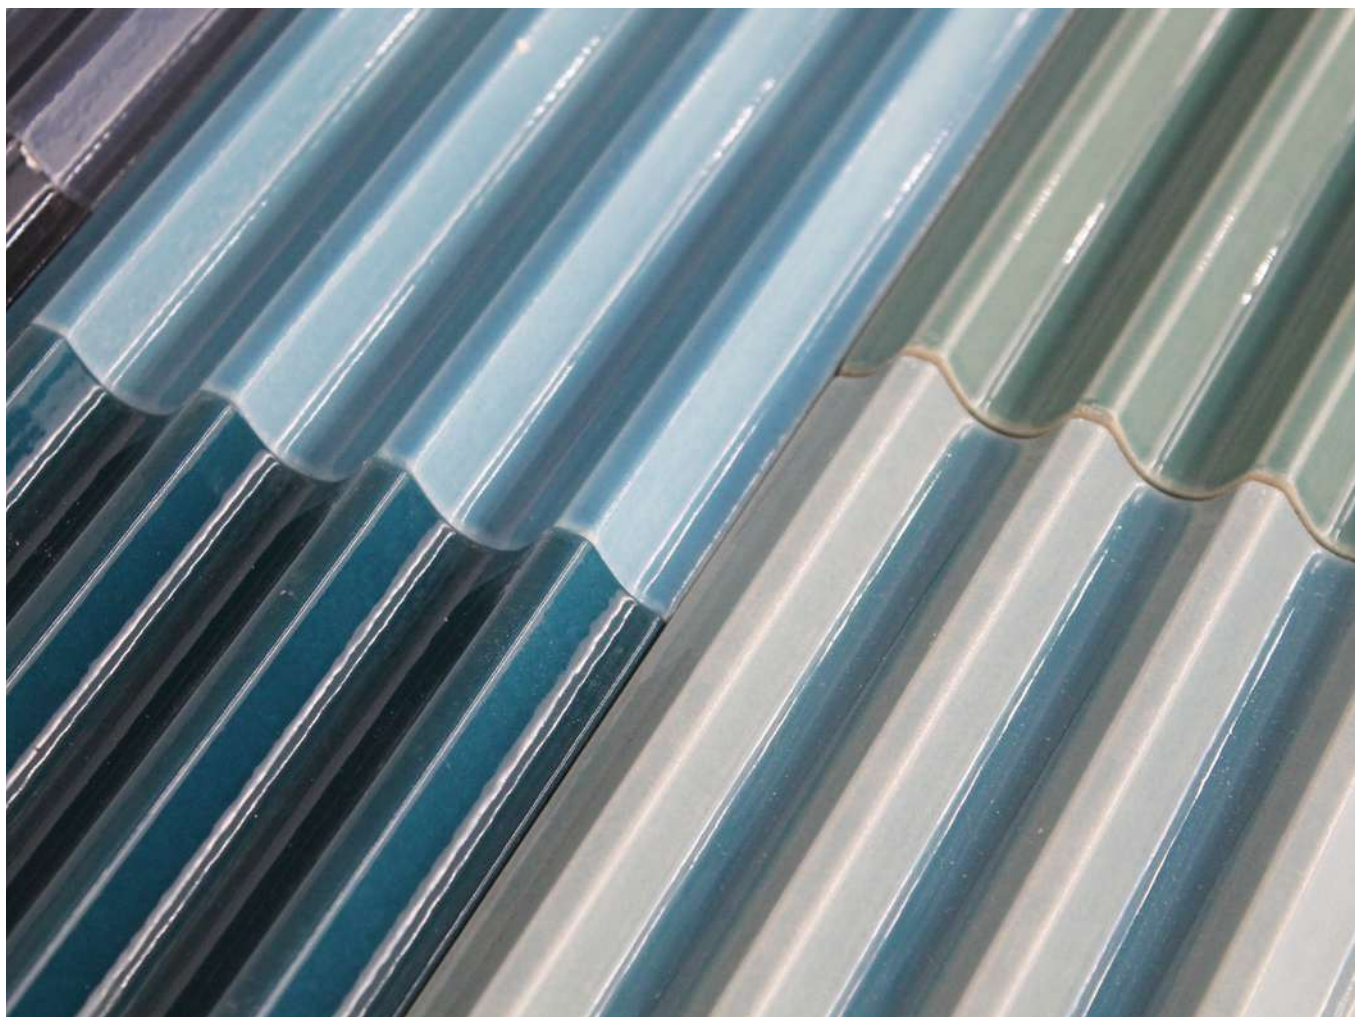

Perfect to design walls (frequently used for covering elegant bathrooms walls) and bar front with sinuous flutes, multi-faceted patterns and elegant reliefs. Tiles can be overlapped to create continuous surfaces.

Suitable for indoor and outdoor use , the tiles add a sense of movement through the introduction of their 3D surfaces profile, playing with shadow, light and tactility.

Fluted tiles are produced in accordance with a hand-crafted technique which makes the material heterogeneous, both in the effects on the surface and in the dimension of the pieces.

Material: stoneware | earthenware

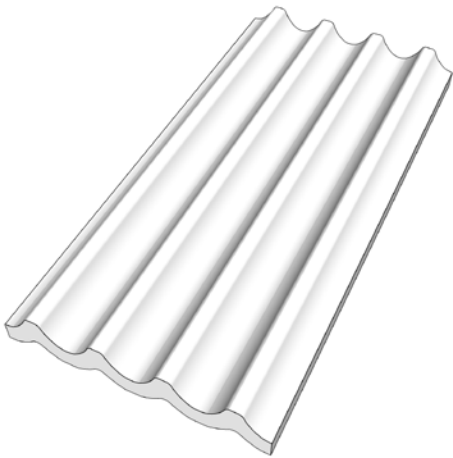

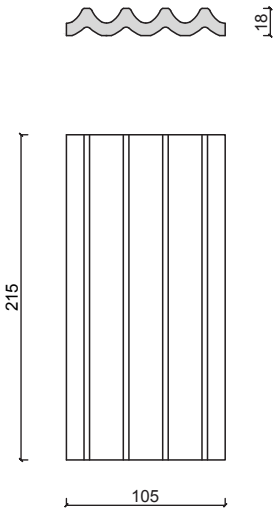

Each tile is bespoke and made in Italy. Custom colours, texture and effect are available.
