dimensioni**

FLUTED SHAPES

Le piastrelle di ceramica scanalate sono caratterizzate da una superficie liscia e increspata.

—
5

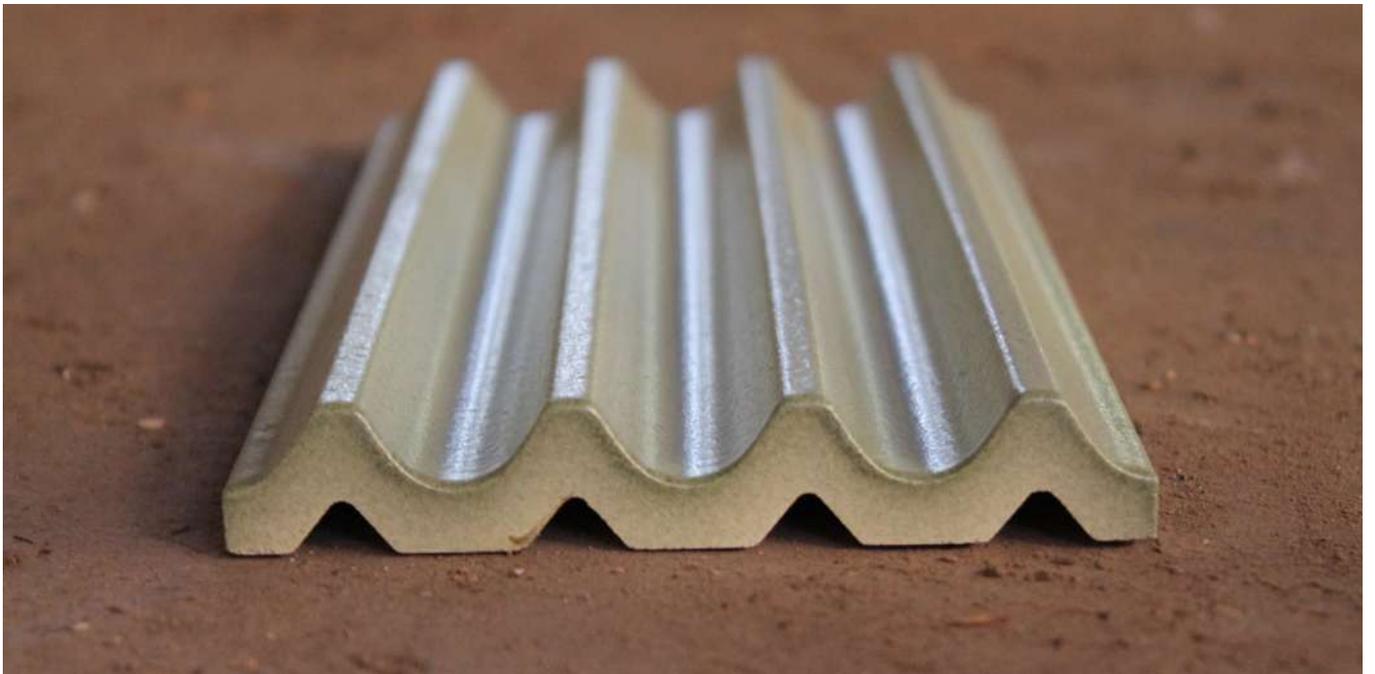

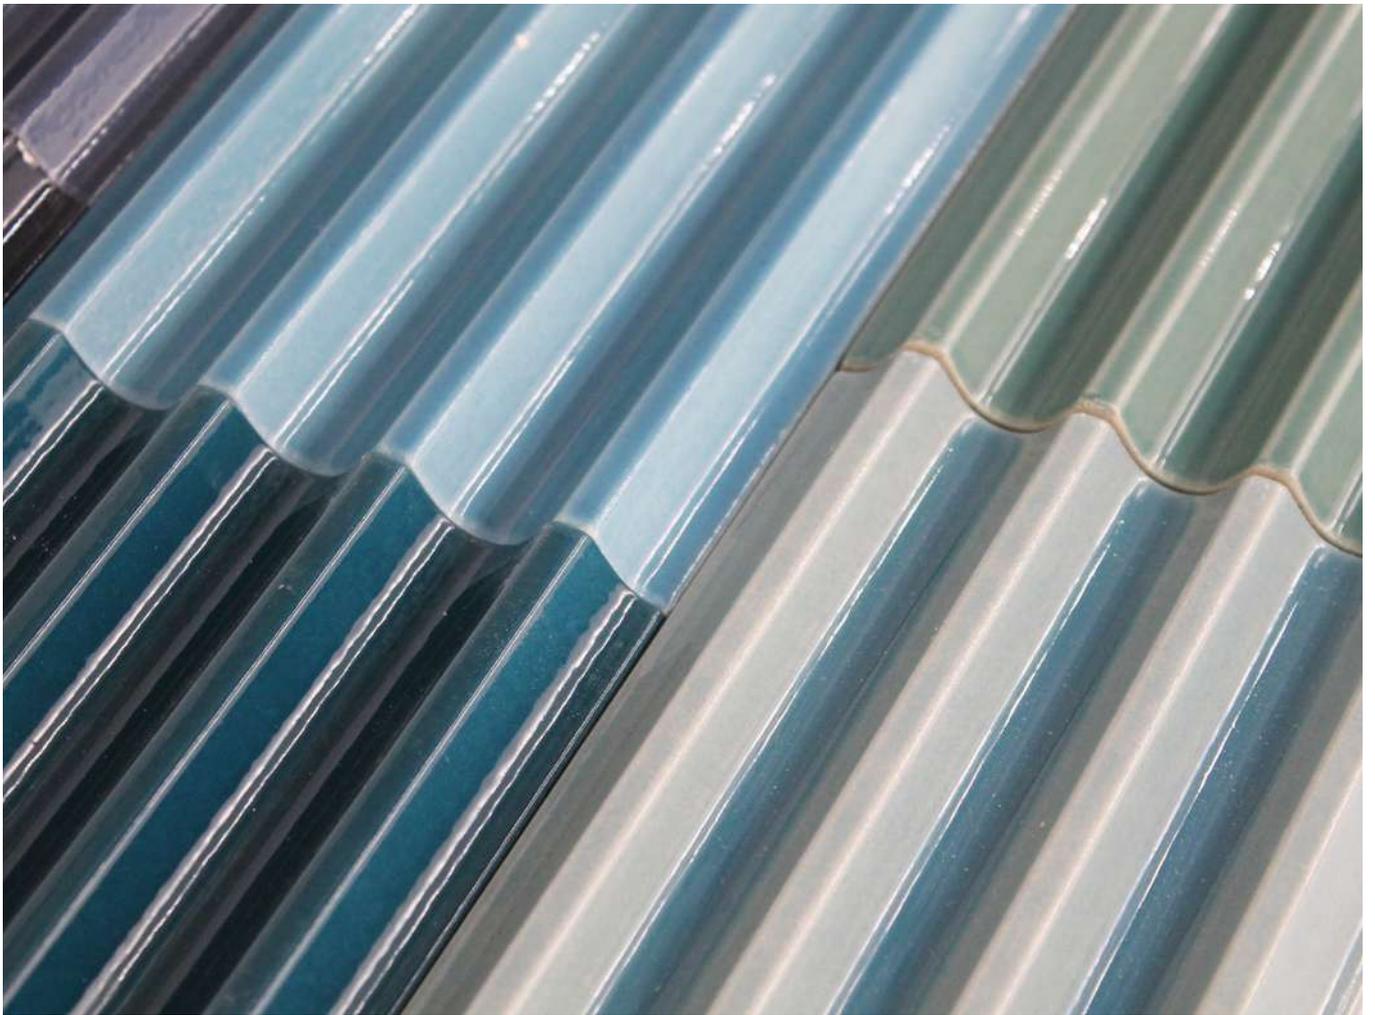

Perfette per disegnare pareti (spesso utilizzate per rivestire eleganti pareti di bagni) e frontali di bar con sinuose scanalature, motivi sfaccettati ed eleganti rilievi. Le piastrelle possono essere sovrapposte per creare superfici continue.

Adatte all'uso interno ed esterno, le piastrelle aggiungono un senso di movimento attraverso l'introduzione del loro profilo 3D, giocando con l'ombra, la luce e la tattilità.

Le piastrelle scanalate sono prodotte secondo una tecnica artigianale che rende il materiale eterogeneo, sia negli effetti sulla superficie che nella dimensione dei pezzi.

Materiale: gres porcellanato | terracotta

Ogni piastrella è personalizzata e realizzata in Italia. Sono disponibili colori, texture ed effetti personalizzati.

ROUNDED SHAPES

Le piastrelle arrotondate sono caratterizzate da una superficie liscia e increspata. Sono perfette per progettare pareti interne e frontali di bar con flauti sinuosi, motivi sfaccettati ed eleganti rilievi.

Queste piastrelle aggiungono un senso di movimento attraverso l'introduzione del profilo delle loro superfici 3D, giocando con l'ombra, la luce e la tattilità.

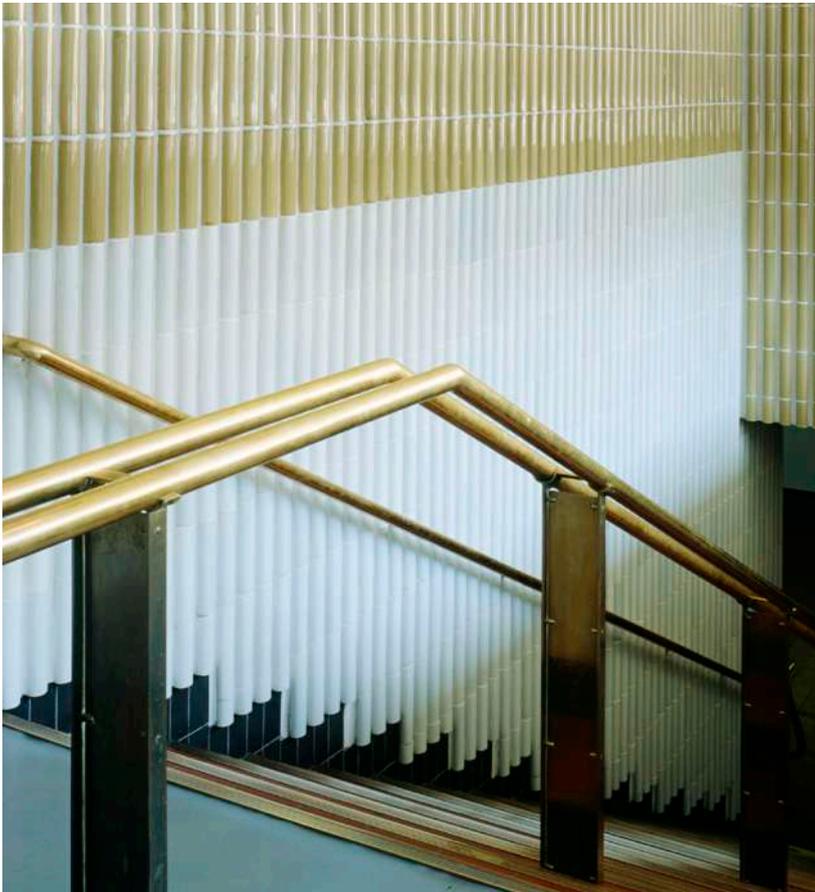

Le piastrelle sono prodotte secondo una tecnica artigianale che rende il materiale eterogeneo, sia negli effetti sulla superficie che nella dimensione dei pezzi.

Materiale: gres porcellanato | terracotta

Ogni piastrella è personalizzata e realizzata in Italia. Sono disponibili colori, texture ed effetti personalizzati.

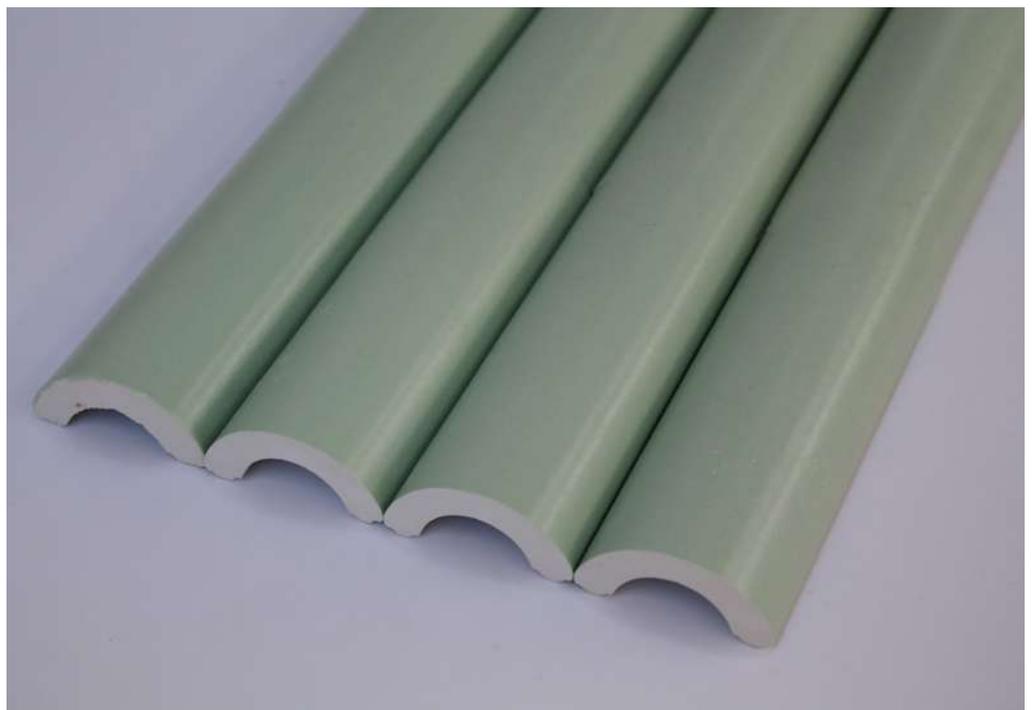

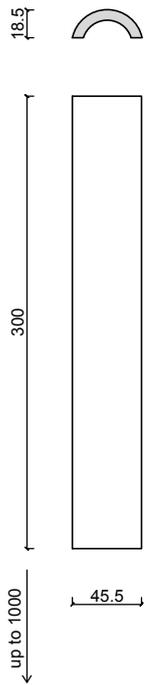

Canopy by Hilton | London UK
